FUNERAL HELD FOR IRCON'S CAPT McNAMARA AT AFH

A funeral — with full military honours — was held on Wednesday morning last in Nicosia for Capt Christopher McNamara of the Irish Contingent serving with UNFICYP who died suddenly in Cyprus last week.

The body of Capt McNamara was brought to Nicosia following his death from natural causes at Xeros Camp.

A requiem mass for Capt McNamara was celebrated at the Austrian Field Hospital by Rev Fr. P. McCabe, Chaplain of the 9 Inf Group. Wreaths were laid on behalf of the Force Commander and each Contingent as well as the United Nations Secretariat.

Among those attending the Funeral and Mass were Lt Col J. I. Cooney, representing the Force Commander; Mr W. J. Y. Duke, UNFICYP Chief Administrative Officer, representing the Special Representative in Cyprus of the Secretary-General, and Lt Col A. Cullen, representing the Minister for Defence of Ireland.

The remains of Capt McNamara were later flown to Ireland — on Thursday, 18 January — and interment took place on Friday 19 January in the United Nations Plot, Glasnevin Cemetery, Dublin.

URGENT APPEAL MADE FOR UNFICYP FUNDS

UN Secretary-General, U Thant, has issued a new and urgent appeal to Governments for voluntary contributions to cover the operation of the United Nations Force in Cyprus until 26 March, as authorized by the UN Secretary Council.

U Thant said in a letter that the financial situation relating to UNFICYP has been progressively deteriorating since inception of the Force in March 1964. He said new pledges totalling more than 10.8 million dollars must now be received if the Organisation was to be in a position to honor in full its past commitments to Governments providing contingents to the Force and to cover other costs involved in maintaining it until the end of the current three month mandate.

The Secretary-General recognized that such contributions were entirely voluntary and were understood to be made without prejudice to the positions of principle regarding the financing of peace-keeping operations.

On the other hand, U Thant emphasized, it was essential that necessary pledges be received if the UN was to be in a position to continue to carry out the mandate unanimously decided and

repeatedly extended by the Security Council, and to honor financial commitments incurred by it for that purpose.

JARRING TO PURSUE MIDDLE EAST PEACE EFFORT, S-G SAYS

U Thant, UN Secretary-General, last week reported that his special peace envoy to the Middle East, Ambassador Gunnar Jarring, had received positive reactions from all the Governments he had visited concerning the desirability of continued steps to improve the general atmosphere while searching for fundamental solutions.

In a progress report to the UN Security Council, U Thant said it would be premature for him to report at this time on the substance of Ambassador Jarring's talks with Israel, Jordan, the United Arab Republic and Lebanon since these were continuing at the wish of the parties and had not reached a stage at which any conclusions could be drawn.

(In Nicosia, the UN Middle East Mission which has its headquarters in this capital, announced that Ambassador Jarring was proceeding to Amman on Sunday and continuing on Monday to Jerusalem with the purpose of holding further discussions with

AAC FLIGHT 'VISITS' FIELD HOSPITAL FOR 'CASEVAC'

The Army Air Corps Flight of UNFICYP descended on members of the Austrian Field Hospital last week. The object of the exercise was to practise the loading and carrying of stretcher — borne casualties in the litters on each side of the Sioux helicopter used when the more luxurious and spacious Wessex is either not available or is impracticable due to the terrain.

The 'patients' were men of the Field Hospital and instruction in transportation was given by NCOs of the AAC Flight. They explained how it is vital for the patient to be wrapped in such a way that he (or she) is both insulated as far as possible and rendered immobile by the means of two blankets being used in a special way. A head support is also used whenever possible.

The 'casualties' were actually transported from the scene of a staged incident to the hospital, a few miles away, so that they had first-hand experience. As a result of this successful co-operation between the two units further practices with elaborations are being planned.

PÅ PATRULJE
I TROODOS

SG J.T. Hansen fra SP-DEL var med sin driver KS T.K. Petersen på patrulje i Troodosbjergene mandag d. 15. januar. På grund af de sidste dages forrygende snevejr var vejene isglatte. I et sving nægtede jeepen at lystre og fortsatte lige ud. Drivren forsøgte at redde vognen, men forgæves. I sidste øjeblik reddede de to personer i vognen sig ved at springe ud, lige inden jeepen forsvandt ned ad en 10-15 m høj bjergskrant.

DANCON - NYT

Vi bringer her løsningen på The Blue Beret's nytårskonkurrence - "næsespøgen" - men for at opretholde spændingen offentliggøres vinderens navn først i næste nummer. Som alle kan se, er det den afholdte og populære våbenmester fra Charlie: FR(S) P.F. Jensen.

Billedet tv.: Efter at den forulykkede danske sømand fra tankskibet "NORDIA HAWK" var bragt til hospitalet i Limassol, blev der travlhed i DANCON. Man etablerede omgående et hold bloddonorer, som skulle afgive blod til sømandens operation. KS Olsen (fra V/MEK) ligger her og nyder "tapningen" på brikken.

Billedet th.: DANCON's fodboldturnering er i fuld gang. I Louroujina havde man besøg af C-COY I, hvor værternes gæstfrihed gav sig udslag i en 6-3 sejr til gæsterne. En af Charlies fuldtreffer ekspederes her af KS J. Jensen hos B/LOU's målmand SG E.O. Almar.

HAR DE SET...?
SOLI TEATRET

For at komme til Soli kører man til Xeros via Morphou, og ca 11,2 km efter Xeros ud ad kystvejen ligger Soli Teatret på venstre side. Soli var en stor by, som formentlig blev grundlagt ca 600 f. Kr. af den berømte athenske statsmand Solon. Byen var meget vigtig, også under det romerske herredømme. Uheldigvis er der intet tilbage af templerne eller andre bygningsværker, skønt man i rejsebeskrivelser kan se, at byen har eksisteret helt op til 1738. Men herefter er byen blevet flyttet sten for sten til andre

bebyggelser, bl. a. havnen i Port Said. Kun det rekonstruerede romerske teater er tilbage. Men dette alene er besøget værd.

CIVILA POLISER-I UNIFORM

Polisbandet här ovan får illustrera den goda andan på SWEDCIVPOL. Med på Cypren gängse gradbeteckningar och vänsterifrån räknat heter musikanterna Subinspector Kurt Enoksson, Norrköping, Sergeant Rolf Nilsson, Falkenberg, Chief Inspector Lars Gullberg, Falkenberg, och Subinspector Anders Jonasson, Göteborg. De fyra musikaliska poliserna mobiliserades inför Lusse, jul och nyår, men har ännu inte framträtt utanför SWEDCIVPOL. Orkestern heter INTE Macnamaras - slagverket på bilden har man hyrt. I själva verket har orkestern ännu inget namn- dags alltså att finna ett sådant före debuten i större sammanhang.

Rekar lättare
än bataljonen

SWEDCON inkluderar som bekant 40 blåbaskrar som - huvudbonaden undantagen - går lite anorlunda klädda än befattningsharna på bataljon 39 C. Den svenska civila polisen här dock uniform var och en av oss, och det är väl bara för att markera skillnaden till militärpolisen som beteckningen Civilian tillkommit.

Chef för den svenska polisstyrkan med huvdsäte på hotell Constantia i Famagusta är Superintendent (lika med poliskommissarie) Torsten Lindberg, Stockholm. Hans ställföreträdare är Supt. Nils Grönberg, även han Stockholm. De har under sig en stabsgrupp, en utredningsgrupp och en operativ grupp. 31 man är knutna till högkvarteret i Famagusta, 7 är stationerade i Larnaca och två i Nicosia. Från Famagusta-styrkan bemannas utposterna i Arsos och Chatos.

De svenska polismännen har den förmånen framför bataljonen att de tillåts rekapitulera i större utsträckning. Detta är rentav en viktig förutsättning för att uppgifterna skall kunna lösas - en "stomme" på 15-18 man stannar kvar vid rotationerna för att de nyanlända skall ha ett gott stöd under första skedet av tjänstgöringen på Cypren.

STRYK I STADIONDEBUT
FÖR BATLAGET I FOTBOLL

Det svenska bataljonslaget i fotboll har växlade framgång på de cypriotiska arenorna. Särskilt växade framgången häromtorsdagen, då laget begick sin debut på Varosha Stadion i Famagusta. Di svenske mötte div. I-laget New Salamis och fick finna sig i förlust med 7-1. Det svenska tröstmålet tillkom genom Kaj Westerlund, hemmahörande på 2. komp. här nere och i Västervik därhemma.

Det skall tilläggas att New Salamis enligt tillförlitliga källor fick stryk med endast 2-1 i en match mot det bekanta engelska ligalaget Arsenal. I ljuset av detta resultat ter sig det svenska nederlaget ganska hedersamt.

På bilden är det Torsten Blom, Huskvarna, på 3. komp, som i flygande fläng lossar stora kanonen.

På sportfronten i övrigt är nästa stora händelse zonnmästerskapen i friidrott på Gold Fish Stadion den 30-31 januari. Väl mött där blir både aktiva och passiva av 2. komp., som håller i arrangemangen.

DANES VISIT BRITCON AT ZYYI

LAST week a party from the Danish contingent of UNFICYP paid a visit to 'B' Squadron, 4th/7th Royal Dragoon Guards after the latter had previously enjoyed the Danes' hospitality. After a look at the hardware owned by the squadron, the two contingents took part in a football match which the Danes won 3-1 and a volley ball match which went to the hosts and made an honourable draw of the overall contest.

A HAIRY STORY

RUMOURS had been heard that there was a new fashion contest taking place amongst a few of the residents in Polemidhia Camp so the camera set out to discover a little more about it.

It found that the handlebar moustache was flourishing on some faces after much nurturing. It is intended to keep eyes open for any whiskers that show signs of extending beyond the limits gained by the current holders.

Lieutenant Derek Hornblower is both Technical Quartermaster and Mechanical Transport Officer of the battalion. It is said that he has often sported a large adornment of the stiff upper lip and that others followed his hirsute example.

BROTHERS IN ARMS

After recently finding a pair of brothers serving together at Zyyi, another pair has been found at Polemidhia.

The brothers Suker from Edmonton, London; Rifleman Edwin (Ted) — left — and Lance-Corporal Peter. Both enlisted on the same day at Finchley, London, exactly three years ago and both are serving as clerks in the battalion, Ted in the Ops Room and Peter in the MT office.

FORCE COMMANDER VISITS IRCON

THE Force Commander, Lieutenant General A.E. Martola visited Lefka District on Friday 19 January and presented the UN (Cyprus) Medal to members of 9 Infantry Group.

The Force Commander was met at Ghaziveran by an Armoured Car Escort and conducted to Xeros Camp. The General was received by the Commanding Officer, Lieutenant Colonel M.J. Murphy on arrival. After inspecting a Guard of Honour commanded by Lieutenant James Mortell the Force Commander was conducted to the parade which was reported to him by Lieutenant Colonel Murphy. The Force Commander then presented the medals, and addressed the parade.

UNFICYP TEAMS TAKE CROSS-COUNTRY HONOURS

LAST week's issue of the Blue Beret announced that three men of HQ UNFICYP would run in the Army (Cyprus) Cross-Country Running Championships at Dhekelia last Friday. It was not then known that the 1st Battalion The Royal Green Jackets would send a team to compete in the major units section or that HQ UNFICYP would be able to raise a complete team in the minor units section.

In the end Lieutenant Bob Baynes of 644 Signal Troop raised a team of eight with the three known runners as its nucleus; they ran to such good effect that they won the minor units championship and have the trophy to prove it!

To stress the fact that UNFICYP keeps active, The Royal Green Jackets team won the major units championship and likewise received a trophy.

The 4th Royal Anglians team from Malta actually took first place but they were running by invitation only.

Cpl John Sabin was unlucky not to be the overall winner from a field of over 90 runners but pulled his ankle whilst negotiating one of the rougher pieces of ground on the tough 6½ mile course. He was placed second to his old rival in England, Lcpl Clue from a British base unit in Famagusta. After being opponents last week the two men have been selected for inclusion in the Army (Cyprus) team to meet the RAF in the inter-service match next Saturday at Episkopi.

Blue Beret takes great pleasure in heartily congratulating

both teams on their conspicuous success.

SECRETARY-GENERAL SEES TALKS FOLLOWING END OF VIET-NAM BOMBING

The Secretary-General of the United Nations, U Thant, last week declared that recent statements from the North-Vietnamese Government had reinforced his conviction that an end to the bombing of North-Viet-Nam would bring about meaningful talks between Hanoi and Washington within three or four weeks.

Speaking at a press conference held at UN Headquarters in New York, U Thant added, however, that talks between Hanoi and Washington would not of themselves solve the problem of Viet-Nam.

The aim of such talks, he said, should be to pave the way to the reconvening of the 1954 Geneva Conference which spelled out the internationally agreed basis for the independence of the former French colonies in Southeast Asia, and the maintenance of peace in the area. And the purpose, he declared, should be to achieve full implementation of the 1954 accords.

U Thant said, while he was convinced an end to the bombing of the North would clear the way for negotiations, he did not believe fighting in the South would stop while talks were going on. He noted that if North Viet-Nam were to agree on a total cease fire, it would amount to open admission of its predominant role in the fighting in the South. And this Hanoi was obviously not prepared to admit.

The Secretary-General observed that it was common knowledge that there were about 50,000 North Viet-Nameese regulars operating in the South, that there were over 200,000 indigenous South Viet-Nameese fighting with the National Liberation Front, over 200,000 in the South Viet-Nameese Army, and about half-a-million Americans and their allies. From Hanoi's point of view, he

suggested, if they agreed to reciprocal steps for an end to the bombing of the North, they would place themselves in a very disadvantageous position militarily.

U Thant stressed the complexity of the Viet-Nameese problem and warned against attempts to over-simplify the causes of the conflict.

ON CYPRUS

The Secretary-General said he was continuing his round of talks with the Representatives of Cyprus, Greece and Turkey in an effort to find a common ground.

He said: "In the context of the Security Council resolution of last December (see BLUE BERET of 27 December 1967, P. 8), I had several rounds of discussions with the representatives of the three Governments here, offering my good offices — and the talks are still going on. The positions of the parties, you will remember are more or less the same as they had stated publicly in the Security Council debate. But I am carrying on with my efforts to find a common ground and a common denominator to help bring about a peaceful settlement of the problem."

RUGBY

Congratulations to Lieutenant Chris Stanger of the 1st Battalion, the Royal Green Jackets, on being selected to play for the Army (Cyprus) team against the RAF at Happy Valley, Episkopi, last Saturday week. The Army won the game for the first time in six years by 11 points to 8 points.

the Jordanian and Israel Governments).

In his report, the Secretary-General said talks had covered two types of questions. The first was concerned with the large and fundamental problems which, he pointed out, were of course the most difficult ones. The other type, involved secondary problems whose solution, he said, would contribute to an improvement of the general atmosphere by relieving certain unnecessary hardships which had essentially resulted from last June's Arab-Israeli conflict.

Such questions, said U Thant, included the release of ships stranded in the Suez Canal, exchange of prisoners of war and certain humanitarian measures.
