U THANT SEES NO ROLE FOR UN IN VIETNAM WAR

SECRETARY - GENERAL
U THANT LAST WEEK
REITERATED HIS VIEW
THAT THE UN SECURITY
COUNCIL could not become effectively involved in a solution of the Vietnam war at this stage because some of the parties directly involved were not UN members.

He added it was entirely up

to the Council to act or not to act on the matter.

U Thant made these comments in response to newsmen's questions relating to a suggestion by Senator Mansfield, Chairman of the US Senate Foreign Relations Committee, that the Vietnam conflict be placed before the Security Council.

UNFICYP ROAD SAFETY WEEK

A UNFICYP ROAD SAFETY WEEK INVOLVING ALL FORCE VEHICLES will be held Island-wide from 1200 hours, 11 September, to 1200 hours, 18 September.

This important event aimed at reducing traffic accidents and driving offenses within UNFICYP has been organized by the UNFICYP Road Safety Committee.

Final details related to the "Week" were worked out during the Committee's meeting held on 10 August at UNFICYP Headquarters under the chairmanship of Lt. Col. N. K. J. Brask, Force Chief Personnel Officer, and with the participation of representative officers from each contingent serving with the Force.

Defensive driving on the part of every UNFICYP driver is the main theme of the Road

Safety Week and the Committee urges the full co-operation of all UNFICYP drivers. In this connexion, the Committee has informed THE BLUE BERET that there will be intensive UN speed traps and observations carried out during this period. Consequently, drivers are cautioned to drive according to the Cyprus Highway Code, with particular attention to speed limits in and out of built up areas — with special care taken concerning the right of way of pedestrians.

Remember, it takes two to make an accident, don't be one of them!

MIDDLE EAST HOLDS U.N. ATTENTION

BOTH the immediate and long range aspects of the Middle East situation held the attention of the United Nations last week.

Foreign Minister Marko Nikezic of Yugoslavia called on the Secretary-General, U Thant, Thursday 31 August to convey a personal message from President Tito.

The Yugoslav President has been active in efforts to promote a Middle East solution and recently visited several Arab capitals.

The Foreign Minister came to the UN Headquarters following talks in Washington.

NEW APPEAL FOR FUNDS TO FINANCE UNFICYP

U N Secretary-General, U Thant, has again appealed to Governments — of States Members of the United Nations or members of the specialized agencies — for voluntary contributions to finance Operation in Cyprus. He pointed out that the financial situation concerning the UN Force in the island has been progressively deteriorating since it was first set up in March 1964.

New pledges totaling more than 8.8 million dollars must now be received, he said, if the world Organization is to be in a posi-

tion to honor past commitments to Governments providing contingents to the Force and to cover other costs involved in maintaining it until 26 December 1967 — as unanimously authorized by the UN Security Council.

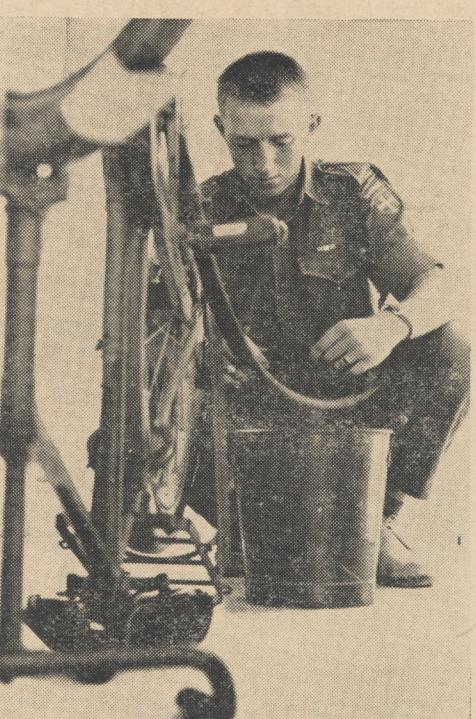

The Secretary-General, in his

DANCON NYT

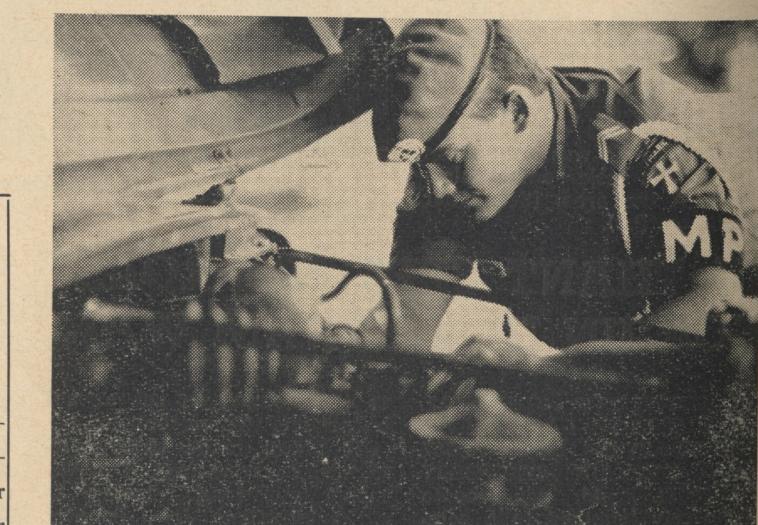

Onsdag 23 AUG fik DANCON VII sin Cypernmedalje, og samme dag fik også motorpuljens mascot Yksi-Kyksi sin medalje for tre måneders trofast tjeneste i motorpuljen. Fenrik Mosgaard præsenterer her Yksi-Kyksi, der er blevet vaccineret på Infermeriet. For interesserede kan det oplyses, at Yksi-Kyksi fortinsvis lever af firben, da det er småt med mus; at den ikke drikker whisky eller øl og at den om dagen sover ved motorpuljen og om natten i skilderhuset ved posten foran Nicosia Club. (Lad som hovedregel være med at røre ved hunde og katte hernede, da de næsten altid er syge og bl. a. giver ringorm).

PAS PÅ!

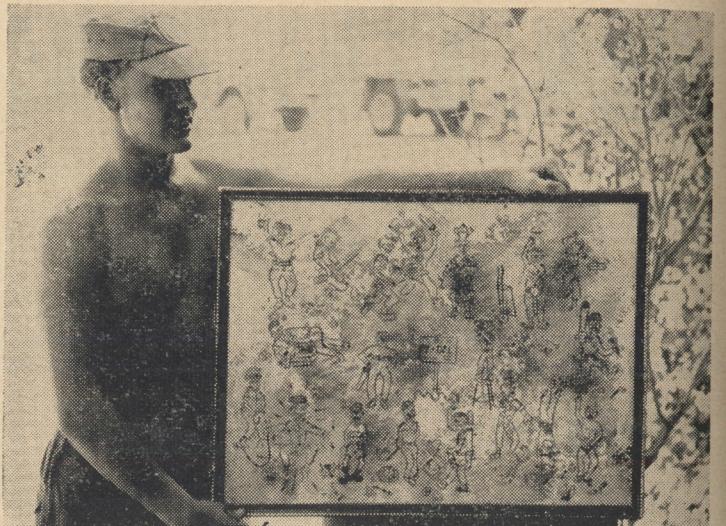

ROAD SAFETY WEEK

En UN-vejsikkerhedsuge for alle UN-køretøjer afholdes over hele Cypern fra 11/200 SEP til 18/200 SEP 1967. Formål: at nedsætte antallet af trafikuheld og hastighedsoverskridelser. Der vil i ugens løb mange steder være hastighedskontrol og andre former for kontrol. Husk, at der oftest er indblandet i en ulykke. Vær ikke den ene!

Starteftersyn er en af de ting, man som motorfører-uanset skal holde. MPKP K. Primdahl er her i gang med dette vigtige eftersyn før udskærel.

HUMORISTISK SANS ER GODT!

Hvis man er interesseret i malerier, er det værd at aflegge et besøg i pionerdelingen, hvor man for en beskeden sum af 50 mils kan bese delingens samling. Mesteren er KS 694963 J.J. Larsen, som her viser sit bedste arbejde frem. Maleriet er et familjeportræt af hele pionerdelingen i arbejde. Advarsel: hvis man ikke kan genkende alle på dette billede, koster det en omgang. KS Larsen er i det civile liv maler og er specialist i åring, manuering, patinering og forgylning.

HÅLL FORTFARANDE TILL VÄNSTER...

Under tiden 11-18 september arrangeras under UNFICYP:s ledning en trafiksäkerhetsvecka omfattande hela ön och alla FN-fordon.

Denna viktiga vecka, som går ut på att minska trafikolyckorna, arrangeras av UNFICYP:s trafiksäkerhetskomité. Närmare detaljer angående "Veckan" utarbetades av komittén, som höll sitt möte den 10.8. under ordförandeskapet av öv N K Brask, Force Chief Personnel Officer, och som medlemmar officerare från varje kontingent.

Ett försiktigt och säkert körsätt är huvudtemat för "Veckan" och komittén hoppas få stöd av varje UNFICYP-förare. I anslutning till detta har komittén informerat The Blue Beret om att det under veckan kommer att utföras en intensiv övervakning av trafiken på vägarna. —Alla förare uppmanas att noggrant följa öns trafikbestämmelser och att särskilt ge akt på hastighetsbegränsningarna och även på fotgängarnas rättigheter i trafiken.

Kom ihåg — för en kollision behövs två fordon, var inte en av dem!

BRITISH CONTINGENT NEWS

Our picture shows a section of the Boot Hill cemetery with its magnificent view. Good plots are in great demand so book early.

The present Sheriff is Cpl Geoffrey Cookson from Huddersfield, who is the section commander of 1 section Mortar platoon. Geoffrey's wife and family are in quarters in Osnabruck.

KEEPING THROUGH!

The task of maintaining communications is a never ending one. Faults can occur when least expected and constant checking and overhauling is required.

THE GUARDIANS OF BOOT HILL

IT IS A LONG CRY FROM AYIOS THEODOROUS TO BOOT HILL in the wild and woolly West but a visitor to Grenadier Hill OP on the outskirts of Ayios Theodoros could easily be fooled. Here Cpl Thomas Baker, section commander of 3 section Anti-tank platoon 1 DWR, (known as The Magnificent Eight) started a tradition that has been observed by every section that has performed a spell of duty on Grenadier Hill. On arrival at the OP after a slow dusty and exceedingly bumpy ride reminiscent of the old stage coach form of travel, one is met by a sign displaying "WELCOME TO BOOT HILL".

Nearby is a signpost indicating that this is a stagecoach stop and signs show- ing the distances to various towns in Yorkshire and the battalions present (excluding Cyprus) home Osnabruck. On the hill one sees the usual collection of tents, galvanised iron kitchen and lookout post but here the semblance to an ordinary OP ends. On the crown of the hill is a miniature graveyard in which stands a dozen or so gravestones carved from slabs of whitish limestone and inscribed with the names of each section that has manned the OP. Many are artistically engraved with the regimental badges both old and new. The idea was first thought of in July this year to help pass the time away and to give the hill an interesting atmosphere, in this they have certainly been successful.

Our picture shows a section of the Boot Hill cemetery with its magnificent view. Good plots are in great demand so book early.

Greetings from Boot Hill — the desperado who left his shoe behind is unknown.

Hard at work preparing their own contribution are Lcpl Dave Eastwood from Pontifract, Pte Robert Bradley from Halifax and Pte Nobby Clark from Ripon.

SAPPERS AT WORK

In the compound at Kophinou, sappers from the composite section 3 field Squadron are busily continuing with the task of improving accommodation, tracks and a multitude of other jobs before winter sets in. Our picture shows Cpl Graham Lane from Cardiff and Spr Leon Wicek from Falkirk hard at work mixing cement to use in repairing the roof of the District Headquarters building. It was hot work but the sappers are used to working in all conditions.

Tieturvallisuusviikko viettää YK:n kaikkia ajoneuvoja koskevana ja saarenlaajuisena alkaen maanantaina, 11.9. klo 1200 seuraavan maanantaihin, 18.9. klo 1200 asti.

UNFICYP:in tieturvallisuus-

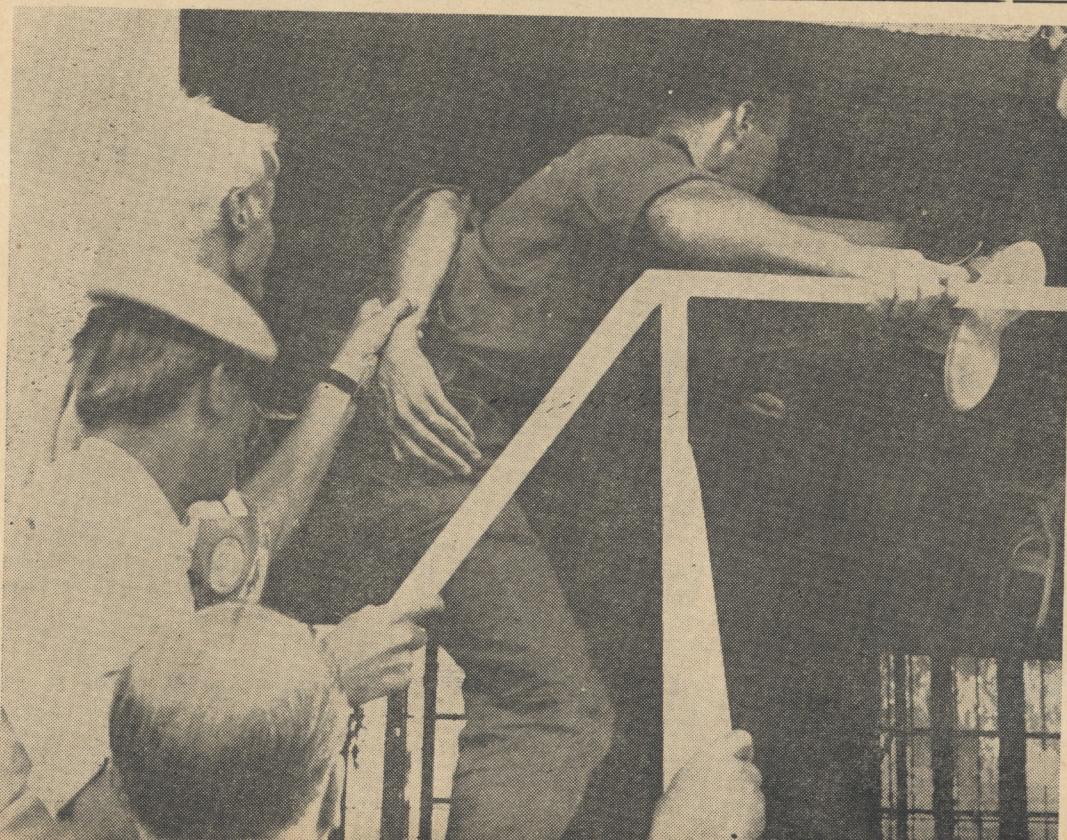

komitea on viikon järjestelyjen takana. Viikon tarkoituksesta on vähentää liikenneonnettomuuksien määrää ja ajotapariikomuksia rauhanturvojoukkojen omassa piirissä.

Lopullista viikkoon liittyvästä yksityiskohdista päätti UNFICYP:in esikunnassa 10.8. pidetyssä komitean kokousessa. Puheenjohtajana toimi henkilöastion pääliiköö evel N K J Brask ja jokainen kontingenti oli lähetänyt mukaan omat edustajansa.

Tieturvallisuusviikon päättämana on saada jokainen YK:ajaaja noudattamaan huollista ja ennaltaehkäisevää ajotapaa. Komitea toivookin jokaisen rauhanturva-joukkoihin kuuluvan ajajan yhteistyötä asiassa. Tässä yhteydessä komitea on ilmoittanut Blue Beretille, että kyseisen ajanjakson kuluessa tullaan YK:n taholta suorittamaan tehostettua nopeus- ja ajotapaturkailua. Niinpä ajaja muistutetaan noudattamaan saaren liikenemääräyksiä ja kiinnittämään erityisesti huomiota nopeusrajoitukseen niin yksiköiden alueilla kuin muuallakin, missä niitä esiintyy. Erityisesti on pidettävä kiinni jalankulkijoiden oikeuksista.

Muista, vahingon aikaansaamiseen tarvitaan tavallisesti kaksi osapuolta; älä sinä ole kumpikaan niistä!

UN GROUP VOTES ON GIBRALTAR

The UN Decolonization Committee on 1 September approved the resolution inviting Spain and Britain to resume negotiations with a view to ending the colonial situation in Gibraltar, which Britain administers and over which Spain claims sovereignty.

Sponsored by Chile, Iraq, Syria and Uruguay, the resolution declares that the referendum which Britain plans to hold in Gibraltar on 10 September would contradict the recommendations of the last General Assembly.

The resolution also states that any colonial situation which disrupts national unity of a country is incompatible with the provisions of the assembly's declaration against colonialism.

A vote on the draft was 16 in favour, 2 against (Britain and Australia) with 6 abstentions (Madagascar, Sierra Leone, United States, Ethiopia, Finland and India).

Some of those who voted in favour, as well as those opposing or abstaining in the vote, entered strong reservations against reference to situations disrupting national unity.

They held that relevant provisions of the anti-colonial declaration were being wrongly interpreted to apply to a sovereign state rather than to a colonial country.

Satellites to Link World Weather Map

Developments in the peaceful use of outer space were the subjects of discussion in various meetings at the United Nations Headquarters last week.

Achievements in space science and technology and hopes for the expanded use of satellites in such fields as meteorology and communications were examined in a sub-committee of Committee on the Peaceful Uses of Outer Space.

A spokesman for the World Meteorological Organization described the projected world weather watch which is expected to come into operation by 1971. He pointed out that the meteorologists had never had a complete picture of the weather over the whole world at any one moment, and that there were gaps in their knowledge of atmosphere and how it works.

The use of satellites to transmit data, along with ground and sea networks for receiving, processing and exchanging it, held out a promise of truly global coverage.

MIDDLE EAST . . .

(Continued from P.1)

Meanwhile, the Secretary-General reported to the Security Council that General Odd Bull, chief UN Truce Supervisor in the Middle East, had secured an indefinite extension of the UAR — Israel agreement to stop all military activities in the Suez Canal, including the movement of boats.

Agreement to this effect had initially been worked out, in response to General Bull's suggestions, for a period of one month, which ended Sunday 27 August.

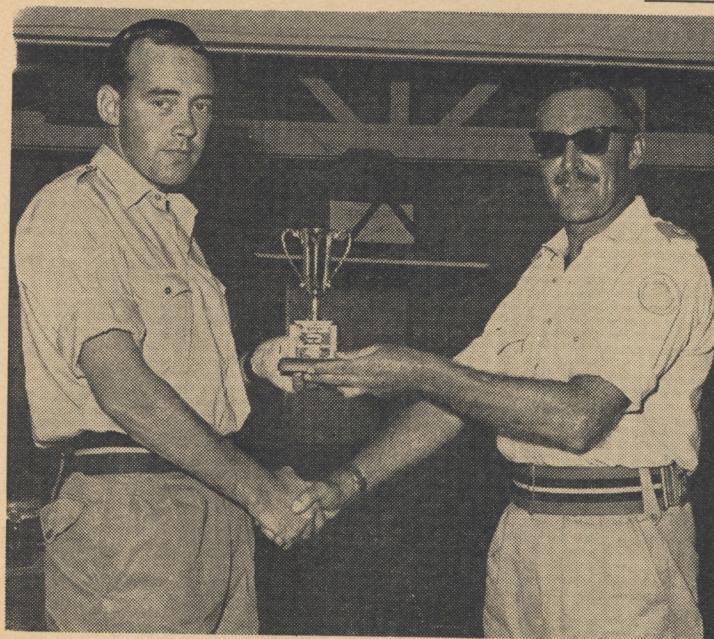

Under the extended agreement, as before, exception has been made to allow boats under the control of the Suez Canal authority to provide supplies to ships stranded in the Canal.

Also this week, 6 Finns and 3 Swedes arrived in the Suez Canal area to augment the UN observer team there which is being increased from a total of 32 to 50 men.

As of Thursday 31 August, the Secretary-General had not received an official reply to his request that Israel extend its August 31st deadline for the return of Arab refugees to the Israel controlled territory on the west bank of the Jordan river.

An emissary of the Secretary-General, Mr. Nilsgagan Gussing, was due back at Headquarters last Friday following a further round of Middle East talks on humanitarian problems arising out of the recent war.
